Tinshu Genesis Gemuh  
Helps International (HINT) Cameroon  
PO Box 469 Buea  
South West Province  
Cameroon

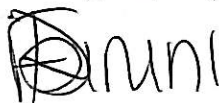

Dear Mr Tinshu

This letter serves to confirm that Computers 4 Africa has donated a 20ft container of computers and other IT equipment to Helps International (HINT) Cameroon. All the IT equipment has been donated free of charge and as agreed, all donated computers will be used to install computer labs in schools around Buea area.

Computers 4 Africa is a charitable organization that collects computers, monitors, educational materials and any other working IT equipment and ships them to African schools. The computers donated will be used to teach the children vital IT skills they would not otherwise have. Granting school children access to computers transforms their lives and improves their career prospects. One IT literate child has the potential to earn enough not only to feed themselves but also their extended family, for years ahead.

We look forward to receiving case studies and photographs of computers once they have been installed in school labs.

Kind Regards,

A handwritten signature in black ink, appearing to read 'Faith Dziruni', written in a cursive style.

Faith Dziruni
